APOLLO FOOD HOLDINGS BERHAD

(Incorporated in Malaysia)

DIRECTORS' REPORT

The Directors have pleasure in submitting their report and the audited financial statements of the Group and of the Company for the financial year ended 30 April 2015.

PRINCIPAL ACTIVITIES

The Company is principally engaged in investment holding and provision of management services to subsidiaries. The principal activities of the subsidiaries are set out in Note 10 to the financial statements.

RESULTS

	Group RM	Company RM
Profit for the financial year	<u>25,293,936</u>	<u>20,649,098</u>

DIVIDEND

Dividends paid, declared or proposed since the end of the previous financial year was as follows:

	Company RM
In respect of financial year ended 30 April 2014:	
Final single tier dividend of 25 sen per ordinary share, paid on 9 January 2015	<u>20,000,000</u>

The Directors proposed a single tier final dividend of 25 sen per ordinary share, amounting to RM20,000,000 in respect of the financial year ended 30 April 2015, subject to the approval of members at the forthcoming Annual General Meeting.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

ISSUE OF SHARES AND DEBENTURES

There were no new issues of shares or debentures during the financial year.

OPTIONS GRANTED OVER UNISSUED SHARES

No options were granted to any person to take up unissued shares of the Company during the financial year.

DIRECTORS

The Directors who have held for office since the date of the last report are:

Liang Chiang Heng
Liang Kim Poh
Ng Chet Chiang @ Ng Chat Choon
Datuk P. Venugopal A/L V.K. Menon
Abdul Rahim Bin Bunyamin
Datin Paduka Hj. Aminah Binti Hashim

DIRECTORS' INTERESTS

The Directors holding office at the end of the financial year and their beneficial interests in ordinary shares and options over ordinary shares in the Company and of its related corporations during the financial year ended 30 April 2015 as recorded in the Register of Directors' Shareholdings kept by the Company under Section 134 of the Companies Act, 1965 in Malaysia were as follows:

	----Number of ordinary shares of RM1.00 each----			
	Balance as at 1.5.2014	Bought	Sold	Balance as at 30.4.2015
Shares in the Company				
<u>Direct interests:</u>				
Liang Chiang Heng	254,600	-	-	254,600
Liang Kim Poh	225,000	-	-	225,000
Ng Chet Chiang @ Ng Chat Choon	20,000	-	-	20,000
Datuk P. Venugopal A/L V.K. Menon	25,000	-	-	25,000
Abdul Rahim Bin Bunyamin	17,000	-	-	17,000
<u>Indirect interests:</u>				
Liang Chiang Heng	41,048,415	-	-	41,048,415

Datuk P. Venugopal A/L V.K. Menon	10,000	-	-	10,000
	----Number of ordinary shares of RM1.00 each----			
	Balance as at 1.5.2014	Bought	Sold	Balance as at 30.4.2015
Shares in the ultimate holding company				
Keynote Capital Sdn. Bhd.				
<u>Direct interests:</u>				
Liang Chiang Heng	270,350	-	-	270,350
Liang Kim Poh	232,506	-	-	232,506

DIRECTORS' INTERESTS (continued)

By virtue of their interests in the ordinary shares of the Company, Liang Chiang Heng and Liang Kim Poh are also deemed to be interested in the ordinary shares of all the subsidiaries to the extent that the Company has an interest.

None of the other Directors holding office at the end of the financial year held any interest in ordinary shares and options over ordinary shares in the Company or ordinary shares, options over ordinary shares and debentures of its related corporations during the financial year.

DIRECTORS' BENEFITS

Since the end of the previous financial year, none of the Directors have received or become entitled to receive any benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by the Directors as shown in the financial statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest, except for any benefits which may be deemed to have arisen by virtue of those transactions as disclosed in Note 28 to the financial statements.

There were no arrangements during and at the end of the financial year, to which the Company is a party, which had the object of enabling the Directors to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

OTHER STATUTORY INFORMATION REGARDING THE GROUP AND THE COMPANY

(I) AS AT THE END OF THE FINANCIAL YEAR

- (a) Before the statements of profit or loss and other comprehensive income and statements of financial position of the Group and of the Company were made out, the Directors took reasonable steps:
 - (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and have satisfied themselves that no known bad debts written off and provision need not be made for doubtful debts; and
 - (ii) to ensure that any current assets other than debts, which were unlikely to realise their book values in the ordinary course of business had been written down to their estimated realisable values.
- (b) In the opinion of the Directors, the results of the operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

**OTHER STATUTORY INFORMATION REGARDING THE GROUP AND THE COMPANY
(continued)**

(II) FROM THE END OF THE FINANCIAL YEAR TO THE DATE OF THIS REPORT

- (c) The Directors are not aware of any circumstances:
 - (i) which would necessitate the amount written off for bad debts or the making of provision for doubtful debts in the financial statements of the Group and of the Company;
 - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; and
 - (iii) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of Company misleading or inappropriate.
- (d) In the opinion of the Directors:
 - (i) there has not arisen any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made; and
 - (ii) no contingent or other liability has become enforceable, or is likely to become enforceable, within the period of twelve (12) months after the end of the financial year which would or may affect the ability of the Group or of the Company to meet their obligations as and when they fall due.

(III) AS AT THE DATE OF THIS REPORT

- (e) There are no charges on the assets of the Group and of the Company which have arisen since the end of the financial year to secure the liabilities of any other person.
- (f) There are no contingent liabilities of the Group and of the Company which have arisen since the end of the financial year.
- (g) The Directors are not aware of any circumstances not otherwise dealt with in the report or financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

ULTIMATE HOLDING COMPANY

The Directors regard Keynote Capital Sdn. Bhd., a company incorporated in Malaysia as the ultimate holding company.

AUDITORS

The auditors, BDO, have expressed their willingness to continue in office.

Signed on behalf of the Board in accordance with a resolution of the Directors.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF APOLLO FOOD HOLDINGS BERHAD

Report on the Financial Statements

We have audited the financial statements of Apollo Food Holdings Berhad, which comprise statements of financial position as at 30 April 2015 of the Group and of the Company, and statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 9 to 69.

Directors' Responsibility for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards, and the requirements of the Companies Act, 1965 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as of 30 April 2015 and of their financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF APOLLO FOOD HOLDINGS BERHAD (continued)

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We are satisfied that the accounts of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- (c) The audit reports on the accounts of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Act.

Other Reporting Responsibilities

The supplementary information set out in Note 33 to the financial statements is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The Directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ('MIA Guidance') and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

APOLLO FOOD HOLDINGS BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS
30 APRIL 2015

1. CORPORATE INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of the Bursa Malaysia Securities Berhad.

The registered office of the Company is located at Suite 1301, 13th Floor, City Plaza, Jalan Tebrau, 80300 Johor Bahru, Johor.

The principal place of business is located at 70, Jalan Langkasuka, Larkin Industrial Area, 80350 Johor Bahru, Johor.

The immediate and ultimate holding company of the Company is Keynote Capital Sdn. Bhd., which is incorporated in Malaysia.

The consolidated financial statements for the financial year ended 30 April 2015 comprise the Company and its subsidiaries. These financial statements are presented in Ringgit Malaysia ('RM'), which is also the Company's functional currency.

The financial statements were authorised for issue in accordance with a resolution by the Board of Directors on 19 August 2015.

2. PRINCIPAL ACTIVITIES

The Company is principally engaged in investment holding and provision of management services to subsidiaries. The principal activities of the subsidiaries are set out in Note 10 to the financial statements. There have been no significant changes in the nature of these activities during the financial year.

3. BASIS OF PREPARATION

The financial statements of the Group and of the Company set out on pages 9 to 69 have been prepared in accordance with Malaysian Financial Reporting Standards ('MFRSs'), International Financial Reporting Standards ('IFRSs') and the provisions of the Companies Act, 1965 in Malaysia. However, Note 33 to the financial statements set out on page 70 has been prepared in accordance with Guidance on Special Matter No. 1, *Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements*, as issued by the Malaysian Institute of Accountants ('MIA Guidance') and the directive of Bursa Malaysia Securities Berhad.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of accounting

The financial statements of the Group and of the Company have been prepared under the historical cost convention except as otherwise stated in the financial statements.

The preparation of financial statements in conformity with MFRSs requires the Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent assets and contingent liabilities. In addition, the Directors are also required to exercise their judgements in the process of applying the accounting policies. The areas involving such judgements, estimates and assumptions are disclosed in Note 6 to the financial statements. Although these estimates and assumptions are based on the Directors' best knowledge of events and actions, actual results could differ from those estimates.

4.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and all its subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- (a) Power over the investee;
- (b) Exposure, or rights, to variable returns from its involvement with the investee; and
- (c) The ability to use its power over the investee to affect its returns.

If the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) The contractual arrangement with the other vote holders of the investee;
- (b) Rights arising from other contractual agreements; and
- (c) The voting rights of the Group and potential voting rights.

Intragroup balances, transactions, income and expenses are eliminated on consolidation. Unrealised gains arising from transactions with associates and joint ventures are eliminated against the investment to the extent of the interest of the Group in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no impairment.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Basis of consolidation (continued)

The financial statements of the subsidiaries are prepared for the same reporting period as that of the Company, using consistent accounting policies. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by the other entities in the Group.

Non-controlling interests represent equity in subsidiaries that are not attributable, directly or indirectly, to owners of the parent, and is presented separately in the consolidated statement of profit or loss and other comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the financial year are included in the statement of profit or loss and other comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Changes in the Company owners' ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of consideration paid or received is recognised directly in equity and attributed to owners of the parent.

If the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between:

- (i) The aggregate of the fair value of the consideration received and the fair value of any retained interest; and
- (ii) The previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under MFRS 139 *Financial Instruments: Recognition and Measurement* or, where applicable, the cost on initial recognition of an investment in associate or joint venture.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.3 Business combinations

Business combinations are accounted for by applying the acquisition method of accounting.

Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured at their fair value at the acquisition date, except that:

- (a) Deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with MFRS 112 *Income Taxes* and MFRS 119 *Employee Benefits* respectively;
- (b) Liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement by the Group of an acquiree's share-based payment transactions are measured in accordance with MFRS 2 *Share-based Payment* at the acquisition date; and
- (c) Assets (or disposal groups) that are classified as held for sale in accordance with MFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the serviced are received.

Any contingent consideration payable is recognised at fair value at the acquisition date.

Measurement period adjustments to contingent consideration are dealt with as follows:

- (a) If the contingent consideration is classified as equity, it is not remeasured and settlement is accounted for within equity.
- (b) Subsequent changes to contingent consideration classified as an asset or liability that is a financial instrument within the scope of MFRS 139 are recognised either in profit or loss or in other comprehensive income in accordance with MFRS 139. All other subsequent changes are recognised in profit or loss.

In a business combination achieved in stages, previously held equity interests in the acquiree are re-measured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

Components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured at fair value. All other components of non-controlling interests shall be measured at their acquisition-date fair values, unless another measurement basis is required by MFRSs. The choice of measurement basis is made on a combination-by-combination basis. Subsequent to initial recognition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the previously held equity interest of the Group in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill in the statement of financial position. In instances where the latter amount exceeds the former, the excess is recognised as a gain on bargain purchase in profit or loss on the acquisition date.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Property, plant and equipment and depreciation

All items of property, plant and equipment are initially measured at cost. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the asset would flow to the Group and the cost of the asset could be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred. Cost also comprises the initial estimate of dismantling and removing the asset and restoring the site on which it is located for which the Group is obligated to incur when the asset is acquired, if applicable.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the asset and which has different useful life, is depreciated separately.

After initial recognition, property, plant and equipment except for freehold land and buildings are stated at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated to write off the cost of the assets to their residual values on a straight line basis over their estimated useful lives. The principal depreciation rates are as follows:

Long term leasehold land	97 - 98 years
Buildings and improvements	13 - 22 years
Plant, machinery, tools and equipment	4% - 20%
Motor vehicles	20%
Office equipment, furniture and fittings	10% - 33.33%
Renovation	10% - 20%

Construction-in-progress represents system under installation is stated at cost. Construction-in-progress is not depreciated until such time when the asset is available for use.

At the end of each reporting period, the carrying amount of an item of property, plant and equipment is assessed for impairment when events or changes in circumstances indicate that its carrying amount may not be recoverable. A write down is made if the carrying amount exceeds the recoverable amount (see Note 4.8 to the financial statements on impairment of non-financial assets).

The residual values, useful lives and depreciation method are reviewed at the end of each reporting period to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Property, plant and equipment and depreciation (continued)

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the carrying amount is included in profit and loss.

4.5 Leases and hire purchase

Leases of land and buildings

For leases of land and buildings, the land and buildings elements are considered separately for the purpose of lease classification and these leases are classified as operating or finance leases in the same way as leases of other assets.

The minimum lease payments including any lump-sum upfront payments made to acquire the interest in the land and buildings are allocated between the land and the buildings elements in proportion to the relative fair values of the leasehold interests in the land element and the buildings element of the lease at the inception of the lease.

For a lease of land and buildings in which the amount that would initially be recognised for the land element is immaterial, the land and buildings are treated as a single unit for the purpose of lease classification and is accordingly classified as a finance or operating lease. In such a case, the economic life of the buildings is regarded as the economic life of the entire leased asset.

4.6 Investment properties

Investment properties are properties which are held to earn rental yields or for capital appreciation or for both and are not occupied by the Group. Investment properties also include properties that are being constructed or developed for future use as investment properties. Investment properties are initially measured at cost, including transaction costs, less any accumulated depreciation and any accumulated impairment losses.

Subsequent costs are included in the carrying amount of the investment properties or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the asset would flow to the Group and the cost of the asset could be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of investment properties are recognised in profit or loss as incurred. Cost also comprises the initial estimate of dismantling and removing the asset and restoring the site on which it is located for which the Group is obligated to incur when the investment properties are acquired, if applicable.

After initial recognition, investment properties are stated at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated to write off the cost or valuation of the investment properties to their residual values on a straight line basis over their estimated useful lives. The principal depreciation periods for the investments properties ranges between twenty- four (24) and fifty (50) years.

Freehold land has unlimited useful life and is not depreciated.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Investment properties (continued)

At the end of each reporting period, the carrying amount of an item of the investment properties are assessed for impairment when events or changes in circumstances indicate that its carrying amount may not be recoverable. A write down is made if the carrying amount exceeds the recoverable amount (see Note 4.8 to the financial statements on impairment of non-financial assets).

The residual values, useful lives and depreciation method are reviewed at the end of each reporting period to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the investment properties. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

Investment properties are derecognised when either they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The gains or losses arising from the retirement or disposal of investment property is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset and is recognised in profit or loss in the period of the retirement or disposal.

4.7 Investments

Subsidiaries

A subsidiary is an entity in which the Group and the Company are exposed, or have rights, to variable returns from its involvement with the subsidiary and have the ability to affect those returns through its power over the subsidiary.

An investment in subsidiary, which is eliminated on consolidation, is stated in the separate financial statements of the Company at cost. Investments accounted for at cost shall be accounted for in accordance with MFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* when they are classified as held for sale (or included in a disposal group that is classified as held for sale) in accordance with MFRS 5.

When control of a subsidiary is lost as a result of a transaction, event or other circumstance, the Group would derecognise all assets, liabilities and non-controlling interests at their carrying amount and to recognise the fair value of the consideration received. Any retained interest in the former subsidiary is recognised at its fair value at the date control is lost. The resulting difference is recognised as a gain or loss in profit or loss.

4.8 Impairment of non-financial assets

The carrying amount of assets, except for financial assets (excluding investments in subsidiaries), inventories and deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

The recoverable amount of an asset is estimated for an individual asset. Where it is not possible to estimate the recoverable amount of the individual asset, the impairment test is carried out on the cash generating unit ('CGU') to which the asset belongs.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.8 Impairment of non-financial assets (continued)

The recoverable amount of an asset or CGU is the higher of its fair value less cost to sell and its value in use.

In estimating the value in use, the estimated future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. An impairment loss is recognised in profit or loss when the carrying amount of the asset or the CGU, exceeds the recoverable amount of the asset or the CGU. The total impairment loss is allocated to the other assets of the CGU on a pro-rata basis of the carrying amount of each asset in the CGU.

Such reversals are recognised as income immediately in profit or loss. However, to the extent that an impairment loss in the same revalued asset was previously recognised in profit or loss, a reversal of that impairment loss is also recognised in profit or loss.

The impairment loss is recognised in profit or loss immediately.

An impairment loss for other assets is reversed if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment loss was recognised.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Such reversals are recognised as income immediately in profit or loss.

4.9 Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost is determined using the first-in, first-out formula. The cost comprises all costs of purchase, cost of conversion plus other costs incurred in bringing the inventories to their present location and condition. The cost of work-in-progress and finished goods includes the cost of raw materials, direct labour, other direct cost and a proportion of production overheads based on normal operating capacity of the production facilities.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, an equity instrument of another enterprise, a contractual right to receive cash or another financial asset from another enterprise, or a contractual right to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially favorable to the Group.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or a contractual obligation to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially unfavorable to the Group.

Financial instruments are recognised on the statement of financial position when the Group has become a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is recognised at fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issuance of the financial instrument.

An embedded derivative is separated from the host contract and accounted for as a derivative if, and only if the economic characteristics and risks of the embedded derivative is not closely related to the economic characteristic and risks of the host contract, a separate instrument with the same terms as the embedded derivative meets the definition of a derivative, and the hybrid instrument is not measured at fair value through profit and loss.

(a) Financial assets

A financial asset is classified into the following four (4) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise financial assets that are held for trading (i.e. financial assets acquired principally for the purpose of resale in the near term), derivatives (both, freestanding and embedded) and financial assets that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial assets classified as fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial assets classified as fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

However, derivatives that is linked to and must be settled by delivery of unquoted equity instruments that do not have a quoted market price in an active market are recognised at cost.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Financial instruments (continued)

(a) Financial assets (continued)

(ii) Held-to-maturity investments

Financial assets classified as held-to-maturity comprise non-derivative financial assets with fixed or determinable payments and fixed maturity that the Group has the positive intention and ability to hold to maturity.

Subsequent to initial recognition, financial assets classified as held-to-maturity are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as held-to-maturity are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iii) Loans and receivables

Financial assets classified as loans and receivables comprise non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Subsequent to initial recognition, financial assets classified as loans and receivables are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as loans and receivables are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iv) Available-for-sale financial assets

Financial assets classified as available-for-sale comprise non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Subsequent to initial recognition, financial assets classified as available-for-sale are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as available-for-sale are recognised directly in other comprehensive income, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised, at which time the cumulative gains or losses previously recognised in other comprehensive income are recognised in profit or loss. However, interest calculated using the effective interest method is recognised in profit or loss whilst dividends on available-for-sale equity instruments are recognised in profit or loss when the right of the Group to receive payment is established.

Cash and bank balances include cash and cash equivalents, bank overdrafts, deposits and other short term, highly liquid investments with original maturities of three (3) months or less, which are readily convertible to cash and are subject to insignificant risk of changes in value.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Financial instruments (continued)

(a) Financial assets (continued)

A financial asset is derecognised when the contractual right to receive cash flows from the financial asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised directly in other comprehensive income shall be recognised in profit or loss.

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or marketplace convention.

A regular way purchase or sale of financial assets shall be recognised and derecognised, as applicable, using trade date accounting.

(b) Financial liabilities

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. A financial liability is classified into the following two (2) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss comprise financial liabilities that are held for trading, derivatives (both, freestanding and embedded) and financial liabilities that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial assets classified as at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial assets classified as fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

(ii) Other financial liabilities

Financial liabilities classified as other financial liabilities comprise non-derivative financial liabilities that are neither held for trading nor initially designated as fair value through profit or loss.

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using the effective interest method. Gains or losses on other financial liabilities are recognised in profit or loss when the financial liabilities are derecognised and through the amortisation process.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.10 Financial instruments (continued)

(b) Financial liabilities (continued)

A financial liability is derecognised when, and only when, it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expires. An exchange between an existing borrower and lender of debt instruments with substantially different terms are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Any difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

The Group designates corporate guarantees given to banks for credit facilities granted to subsidiaries as financial liabilities at the time the guarantee is issued.

The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with MFRS 137 *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Corporate guarantees provided by the Company for no compensation, in relation to loans or payables of subsidiaries are initially measured at fair value and any resulting differences are recognised as contributions by the Company which form part of the cost of investment in subsidiaries.

(c) Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are classified as equity instruments.

Ordinary shares are recorded at the nominal value and proceeds in excess of the nominal value of shares issued, if any, are accounted for as share premium. Both ordinary shares and share premium are classified as equity. Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit. Otherwise, they are charged to profit or loss.

Interim dividends to shareholders are recognised in equity in the period in which they are declared. Final dividends are recognised upon the approval of shareholders in a general meeting.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.11 Impairment of financial assets

The Group assesses whether there is any objective evidence that a financial asset is impaired at the end of each reporting period.

(a) Loans and receivables

The Group collectively considers factors such as the probability of bankruptcy or significant financial difficulties of the receivable, and default or significant delay in payments to determine whether there is objective evidence that an impairment loss on loans and receivables has occurred. Other objective evidence of impairment include historical collection rates determined on an individual basis and observable changes in national or local economic conditions that are directly correlated with the historical default rates of receivables.

If any such objective evidence exists, the amount of impairment loss is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of loans and receivables is reduced through the use of an allowance account.

If in a subsequent period, the amount of the impairment loss decreases and it objectively relates to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of impairment reversed is recognised in profit or loss.

(b) Available-for-sale financial assets

The Group collectively considers factors such as significant or prolonged decline in fair value below cost, significant financial difficulties of the issuer or obligor, and the disappearance of an active trading market as objective evidence that available-for-sale financial assets are impaired.

If any such objective evidence exists, an amount comprising the difference between the financial asset's cost (net of any principal payment and amortisation) and current fair value, less any impairment loss previously recognised in profit or loss, is transferred from equity to profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.11 Impairment of financial assets (continued)

(b) Available-for-sale financial assets (continued)

Impairment losses in respect of unquoted equity instrument that is carried at cost is recognised in profit or loss and is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Impairment losses on available-for-sale equity investments are not reversed in profit or loss in the subsequent periods. Instead, any increase in the fair value subsequent to the impairment loss is recognised in other comprehensive income.

Impairment losses on available-for-sale debt investments are subsequently reversed in profit or loss if the increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss in profit or loss.

4.12 Income taxes

Income taxes include all taxes on taxable profit. Taxes in profit or loss and other comprehensive income comprise current tax and deferred tax.

(a) Current tax

Current tax expenses are determined according to the tax laws in which the Group operates and include all taxes based upon the taxable profits and real property gains taxes payable on disposal of properties.

(b) Deferred tax

Deferred tax is recognised in full using the liability method on temporary differences arising between the carrying amount of an asset or liability in the statement of financial position and its tax base.

Deferred tax is recognised for all temporary differences, unless the deferred tax arises from goodwill or the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit.

A deferred tax asset, is recognised only to the extent that it is probable that future taxable profits would be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting period. If it is no longer probable that sufficient taxable profits would be available to allow the benefit of part or all of that deferred tax asset to be utilised, the carrying amount of the deferred tax asset would be reduced accordingly. When it becomes probable that sufficient taxable profits would be available, such reductions would be reversed to the extent of the taxable profits.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.12 Income taxes (continued)

(b) Deferred tax (continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax asset against current tax liabilities and when the deferred income taxes relate to the same taxation authority on either:

- (i) The same taxable entity; or
- (ii) Different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax would be recognised as income or expense and included in the profit or loss for the period unless the tax relates to items that are credited or charged, in the same or a different period, directly to equity, in which case the deferred tax would be charged or credited directly to equity.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on the announcement of tax rates and tax laws by the Government in the annual budgets which have the substantive effect of actual enactment by the end of each reporting period.

4.13 Employee benefits

(a) Short term employee benefits

Wages, salaries, social security contributions, paid annual leave, paid sick leave, bonuses and non-monetary benefits are measured on an undiscounted basis and are expensed when employees rendered their services to the Group.

Short term accumulating compensated absences such as paid annual leave are recognised as an expense when employees render services that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur and they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement on leaving the Group.

Bonuses are recognised as an expense when there is a present, legal or constructive obligation to make such payments, as a result of past events and when a reliable estimate can be made of the amount of the obligation.

(b) Defined contribution plan

The Company and its subsidiaries incorporated in Malaysia make contributions to a statutory provident fund and recognised as a liability after deducting any contribution already paid and as an expense in the period in which the employees render their services.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.13 Employee benefits (continued)

(c) Defined benefit plan

The Group operates an unfunded defined benefit plan for eligible employees of the Group.

The recognition and measurement of the defined benefits plan involve:

- (i) Determining the deficit or surplus by:
 - (a) Using an actuarial technique, the projected unit credit method, to make a reliable estimate of the ultimate cost to the Group of the benefit that employees have earned in return for their service in the current and prior periods;
 - (b) Discounting that benefit in order to determine the present value of the defined benefit obligation and the current service cost; and
 - (c) Deducting the fair value of any plan assets from the present value of the defined benefit obligation.
- (ii) Determining the amount of the net defined benefit liability as the amount of the deficit or surplus as determined above, adjusted for any effect of limiting a net defined benefit asset to the asset ceiling; and
- (iii) Determining amounts to be recognised in profit or loss, i.e. current service cost, any past service cost and gain or loss on settlement and net interest on the net defined benefit liability.

The Group determines the net defined benefit liability annually so that the amounts recognised in the financial statements do not differ materially from the amounts that would be determined at the end of the reporting period.

The Group recognises the net defined benefit liability in the statement of financial position.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

The Group uses the yield rate of high quality government or corporate bonds which have AA rating or higher to discount the post-employment benefit obligations. The currency and term of the government bonds (corporate bonds) are consistent with the currency and estimated term of the post-employment benefit obligations of the Group.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.13 Employee benefits (continued)

(c) Defined benefit plan (continued)

The remeasurement of the net defined obligation are recognised directly within equity. The remeasurement include:

- (i) Actuarial gains and losses;
- (ii) Return on plan assets, excluding interest; and
- (iii) Any asset ceiling effects, excluding interest.

Services costs are recognised in profit or loss, and include current and past service costs as well as gains and losses on curtailments.

Net interest expense is recognised in profit or loss, and is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the balance of the net defined benefit obligation, considering the effects of contributions and benefit payments during the reporting period. Gains or losses arising from changes to scheme benefits or scheme curtailment are recognised immediately in profit or loss.

Settlement of defined benefit schemes are recognised in the period when the settlement occurs.

If the Group has an unconditional right to a refund during the life of the plan, it would recognise an asset measured as the amount of the surplus at the end of the reporting period that it has a right to receive a refund which would be the fair value of the plan assets less the present value of the defined benefits obligation, less any associated costs, such as taxes. If the amount of a refund is determined as the full amount or a proportion of the surplus, rather than a fixed amount, the Group would make no adjustment for the time value of money, even if the refund is realisable only at a future date.

If there is no minimum funding requirement for contributions relating to future service, the economic benefit available as a reduction in future contributions is the present value of future service cost to the entity at the end of each reporting period over the shorter of the expected life of the plan and the expected life of the entity. The Group would assume no change to the benefits provided by a plan in the future until the plan is amended and shall assume a stable workforce in the future unless it is demonstrably committed at the end of the reporting period to make a reduction in the number of employees covered by the plan.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.14 Foreign currencies

(a) Functional and presentation currency

Items included in the financial statements of each of the entities of the Group are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Ringgit Malaysia, which is the functional and presentation currency of the Company.

(b) Foreign currency translations and balances

Transactions in foreign currencies are converted into functional currency at rates of exchange ruling at the transaction dates. Monetary assets and liabilities in foreign currencies at the end of each reporting period are translated into functional currency at rates of exchange ruling at that date. All exchange differences arising from the settlement of foreign currency transactions and from the translation of foreign currency monetary assets and liabilities are included in profit or loss in the period in which they arise. Non-monetary items initially denominated in foreign currencies, which are carried at historical cost are translated using the historical rate as of the date of acquisition, and non-monetary items, which are carried at fair value are translated using the exchange rate that existed when the values were determined for presentation currency purposes.

4.15 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable net of discounts and rebates.

Revenue is recognised to the extent that it is probable that the economic benefits associated with the transaction would flow to the Group, and the amount of revenue and the cost incurred or to be incurred in respect of the transaction can be reliably measured and specific recognition criteria have been met for each of the activities of the Group as follows:

(a) Sale of goods

Revenue from sale of goods is recognised when significant risk and rewards of ownership of the goods has been transferred to the customer and where the Group does not have continuing managerial involvement over the goods, which coincides with the delivery of goods and acceptance by customers.

(b) Dividend income

Dividend income is recognised when the right to receive payment is established.

(c) Management fee

Management fee from rendering of services is recognised when the services are rendered to the subsidiaries.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.15 Revenue recognition (continued)

(d) Interest income

Interest income is recognised as it accrues, using the effective interest method.

(c) Rental income

Rental income is accounted for on a straight line basis over the lease term of an ongoing lease. The aggregate cost of incentives provided for the lessee is recognised as reduction of rental income over the lease term on a straight line basis.

4.16 Provisions

Provisions are recognised when there is a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits would be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, the amount of a provision would be discounted to its present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits would be required to settle the obligation, the provision would be reversed.

Provisions are not recognised for future operating losses. If the Group has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

4.17 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognise contingent assets but disclose its existence where inflows of economic benefits are probable, but not virtually certain.

In the acquisition of subsidiaries by the Group under business combinations, contingent liabilities assumed are measured initially at their fair value at the acquisition date.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.18 Operating segments

Operating segments are defined as components of the Group that:

- (a) engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group);
- (b) whose operating results are regularly reviewed by the chief operating decision makers of the Group (i.e. the Group's Executive Director) in making decisions about resources to be allocated to the segment and assessing its performance; and
- (c) for which discrete financial information is available.

An operating segment may engage in business activities for which it has yet to earn revenues.

The Group reports separately information about each operating segment that meets any of the following quantitative thresholds:

- (a) Its reported revenue, including both sales to external customers and intersegment sales or transfers, is ten (10) per cent or more of the combined revenue, internal and external, of all operating segments.
- (b) The absolute amount of its reported profit or loss is ten (10) per cent or more of the greater, in absolute amount of:
 - (i) the combined reported profit of all operating segments that did not report a loss; and
 - (ii) the combined reported loss of all operating segments that reported a loss.
- (c) Its assets are ten (10) per cent or more of the combined assets of all operating segments.

Operating segments that do not meet any of the quantitative thresholds may be considered reportable, and separately disclosed, if the management believes that information about the segment would be useful to users of the financial statements.

Total external revenue reported by operating segments shall constitute at least seventy five (75) percent of the Group's revenue. Operating segments identified as reportable segments in the current financial year in accordance with the quantitative threshold, if any, would result in a restatement of prior period segment data for comparative purposes.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

4.19 Earnings per share

(a) Basic

Basic earnings per ordinary share for the financial year is calculated by dividing the profit for the financial year attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the financial year.

(b) Diluted

Diluted earnings per ordinary share for the financial year is calculated by dividing the profit for the financial year attributable to equity holders of the parent by the weighted average number of ordinary shares outstanding during the financial year adjusted for the effects of dilutive potential ordinary shares.

4.20 Fair value measurements

The fair value of an asset or a liability is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

The Group measures the fair value of an asset or a liability by taking into account the characteristics of the asset or liability if market participants would take these characteristics into account when pricing the asset or liability. The Group has considered the following characteristics when determining fair value:

- (a) The condition and location of the asset; and
- (b) Restrictions, if any, on the sale or use of the asset.

The fair value measurement for a non-financial asset takes into account the ability of the market participant to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The fair value of a financial or non-financial liability or an entity's own equity instrument assumes that:

- (a) A liability would remain outstanding and the market participant transferee would be required to fulfil the obligation. The liability would not be settled with the counterparty or otherwise extinguished on the measurement date; and
- (b) An entity's own equity instrument would remain outstanding and the market participant transferee would take on the rights and responsibilities associated with the instrument. The instrument would not be cancelled or otherwise extinguished on the measurement date.

5. ADOPTION OF NEW MFRSs AND AMENDMENT TO MFRSs

5.1 New MFRSs adopted during the current financial year

The Group and the Company adopted the following Standards of the MFRS Framework that were issued by the Malaysian Accounting Standards Board ('MASB') during the financial year.

Title	Effective Date
Amendments to MFRS 10 <i>Consolidated Financial Statements</i>	1 January 2014
Amendments to MFRS 12 <i>Disclosure of Interests in Other Entities</i>	1 January 2014
Amendments to MFRS 127 <i>Separate Financial Statements (2011): Investment Entities</i>	1 January 2014
Amendments to MFRS 132 <i>Offsetting Financial Assets and Financial Liabilities</i>	1 January 2014
Amendments to MFRS 136 <i>Recoverable Amount Disclosures for Non-Financial Assets</i>	1 January 2014
Amendments to MFRS 139 <i>Novation of Derivatives and Continuation of Hedge Accounting</i>	1 January 2014
IC Interpretation 21 <i>Levies</i>	1 January 2014

There is no material effect upon adoption of the above standards during the financial year.

5.2 New MFRSs that have been issued, but only effective for annual periods beginning on or after 1 January 2015

The following are accounting standards, amendments and interpretations of the MFRS Framework that have been issued by the Malaysian Accounting Standards Board ('MASB') but have not been adopted by the Group and the Company.

Title	Effective Date
Amendments to MFRS 119 <i>Defined Benefit Plans: Employee Contributions</i>	1 July 2014
Amendments to MFRSs <i>Annual Improvements 2010 – 2012 Cycle</i>	1 July 2014
Amendments to MFRSs <i>Annual Improvements 2011 – 2013 Cycle</i>	1 July 2014
MFRS 14 <i>Regulatory Deferral Accounts</i>	1 January 2016
Amendments to MFRS 10 and MFRS 128 <i>Sale or Contribution of Assets between an Investor and its Associates or Joint Venture</i>	1 January 2016
Amendments to MFRS 11 <i>Accounting for Acquisitions of Interests in Joint Operations</i>	1 January 2016
Amendments to MFRS 116 and MFRS 141 <i>Agriculture: Bearer Plants</i>	1 January 2016
Amendments to MFRS 127 <i>Equity Method in Separate Financial Statements</i>	1 January 2016
Amendments to MFRSs <i>Annual Improvements 2012 – 2014 Cycle</i>	1 January 2016
Amendments to MFRS 101 <i>Disclosure Initiative</i>	1 January 2016
Amendments to MFRS 10, MFRS 12 and MFRS 128 <i>Investment Entities: Applying the Consolidation Exception</i>	1 January 2016
MFRS 15 <i>Revenue from Contracts with Customers</i>	1 January 2017
MFRS 9 <i>Financial Instruments (IFRS as issued by IASB in July 2014)</i>	1 January 2018

The Group and the Company is in the process of assessing the impact of implementing these Standards, since the effects would only be observable for the future financial years.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

6.1 Change in estimates

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Directors are of the opinion that there are no significant changes in estimates at the end of the reporting period.

6.2 Critical judgement made in applying accounting policy

The following are judgements made by management in the process of applying the accounting policies of the Group that have the most significant effect on the amounts recognised in the financial statements.

- (a) Classification between investment properties and property, plant and equipment and prepaid lease payment for land

The Group has developed certain criteria based on MFRS 140 in making judgement whether a property qualifies as an investment property. Investment property is a property held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Group would account for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as investment property.

- (b) Classification of leasehold land

The Group has assessed and classified land use rights of the Group as finance leases based on the extent to which risks and rewards incidental to ownership of the land resides with the Group arising from the lease term. Consequently, the Group has classified the unamortised upfront payment for land use rights as finance leases in accordance with MFRS 117 *Leases*.

- (c) Contingent liabilities

The determination of treatment of contingent liabilities is based on management's view of the expected outcome of the contingencies for matters in the ordinary course of the business.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

6.2 Critical judgement made in applying accounting policy (continued)

(d) Contingent liabilities on corporate guarantees

The Directors are of the view that the chances of the financial institutions to call upon the corporate guarantees are remote.

(e) Impairment of equity investments categorised as other investments

The Group believes that a significant or prolonged decline in fair value of an investment in equity instrument is a decline in fair value of more than twenty percent (20%) of the cost, or the decline in fair value below its original cost has persisted for more than nine (9) to twelve (12) months.

6.3 Key sources of estimation uncertainty

The following are key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Depreciation of property, plant and equipment

The Group estimates the useful lives of property, plant and equipment at the time the assets are acquired based on historical experience, the expected usage, wear and tear of the assets, and technical obsolescence arising from changes in the market demands or service output of the assets. The estimated useful lives of property, plant and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to changes in factors mentioned above. Changes in these factors could impact the useful lives and the residual values of the assets, therefore future depreciation charges could be revised.

(b) Income taxes

Significant judgement is required in determining transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for any anticipated tax audit issues based on estimates of whether additional taxes would be due. Where the final tax outcome is different from the amounts that were initially recorded, such differences would impact the income tax and deferred tax provisions in the period in which such determination is made.

(c) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses and deductible temporary differences to the extent that it is probable that taxable profits would be available against which the losses and deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that could be recognised, based on the likely timing and level of future taxable profits together with future tax planning strategies.

6. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

6.3 Key sources of estimation uncertainty (continued)

(d) Impairment of receivables

The Group makes impairment of receivables based on an assessment of the recoverability of receivables. Impairment is applied to receivables where events or changes in circumstances indicate that the carrying amounts may not be recoverable. Management specifically analyses historical bad debt, customer concentration, customer creditworthiness, current economic trends and changes in customer payment terms when making a judgement to evaluate the adequacy of impairment of receivables. Where the expectation is different from the original estimate, the difference would impact the carrying amount of receivables.

(e) Write down for obsolete or slow moving inventories

The Group writes down its obsolete or slow moving inventories based on an assessment of their estimated net selling price. Inventories are written down when events or changes in circumstances indicate that the carrying amounts could not be recovered. Management specifically analyses sales trend and current economic trends when making this judgement to evaluate the adequacy of the write down for obsolete or slow moving inventories. Where expectations differ from the original estimates, the differences would impact the carrying amount of inventories.

(f) Retirement benefits obligations

The costs, assets and liabilities of the retirement benefits obligations operated by the Group are determined using methods relying on actuarial estimates and assumptions. The details of the key assumptions are set out in Note 18(e) to the financial statements. The Group takes advice from independent actuaries relating to the appropriateness of the assumptions. Changes in the assumptions would have effects on the consolidated statement of financial position and the consolidated statement of profit or loss and other comprehensive income.

(g) Fair value measurement

The financial and non-financial assets and liabilities that are measured subsequent to initial recognition at fair value are grouped into Level 1 to Level 3 based on the degree to which the fair value inputs are observable.

- (i) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities;
- (ii) Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for that asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from price); and
- (iii) Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The classification of an item into the above levels is based on the lowest level of the inputs used in the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

The Group measures financial instruments at fair value as disclosed respectively in Note 30 to the financial statements.

7. PROPERTY, PLANT AND EQUIPMENT

Group	Balance as at 1.5.2014 RM	Additions RM	Written off RM	Depreciation charge for the financial year RM	Balance as at 30.4.2015 RM

8. INVESTMENT PROPERTIES (continued)

Direct operating expenses arising from investment properties during the financial year are as follows:

	Group	
	2015 RM	2014 RM
Quit rent and assessment		
- generating rental income	16,734	15,430
- not generating rental income	44,342	16,865
Insurance		
- generating rental income	4,771	5,512

The fair value of the investment properties of approximately RM21,812,655 (2014: RM17,800,000) was recommended by the Directors as at the end of reporting period based on comparison method that makes reference to recent market value of a similar property in the vicinity on a price per square feet basis. Any changes in the price per square feet will result in a reasonable change in the fair value of the investment property.

9. PREPAID LEASE PAYMENTS FOR LAND

Group	Balance as at 1.5.2014 RM	Amortisation charge for the financial year RM	Balance as at 30.4.2015 RM
Carrying amount			
Short term leasehold land	1,000,000	(115,385)	884,615
<----- At 30.4.2015 ----->			
	Cost RM	Accumulated amortisation RM	Carrying amount RM
Short term leasehold land	1,500,000	(615,385)	884,615
Group	Balance as at 1.5.2013 RM	Amortisation charge for the financial year RM	Balance as at 30.4.2014 RM
Carrying amount			
Short term leasehold land	1,115,385	(115,385)	1,000,000
<----- At 30.4.2014 ----->			
	Cost RM	Accumulated amortisation RM	Carrying amount RM
Short term leasehold land	1,500,000	(500,000)	1,000,000

The leasehold land has a lease period of 60 years, which expires on 27 March 2022.

10. INVESTMENTS IN SUBSIDIARIES

	Company	
	2015 RM	2014 RM
Unquoted equity shares, at cost	<u>39,378,234</u>	<u>39,378,234</u>

(a) The details of the subsidiaries are as follows:

Name of company	Country of incorporation	Effective interest in equity		Principal activities
		2015 %	2014 %	
Apollo Food Industries (M) Sdn. Bhd. [#]	Malaysia	100	100	Manufacture and trading in compound chocolates, chocolate confectionery products and cakes.
Hap Huat Food Industries Sdn. Bhd. [#]	Malaysia	100	100	Investment holding

[#] Subsidiaries audited by BDO Malaysia

(b) On 1 April 2015, Hap Huat Food Industries Sdn. Bhd., a wholly owned subsidiary of Apollo Food Holdings Berhad has changed its business activity to investment company from the distribution and marketing of compound chocolates, chocolate confectionery products and cakes. Its business activities of distribution and marketing are to be assumed by Apollo Food Industries (M) Sdn. Bhd..

11. OTHER INVESTMENTS

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Available-for-sale financial assets				
- quoted shares in Malaysia	3,470,762	4,719,199	3,470,762	4,719,199

Balance as at 30 April 2014	(662,491)	(49,410)	(711,901)

Deferred tax liabilities of the Group

	Property, plant and equipment RM	Others RM	Total RM
Balance as at 1 May 2014	15,262,802	37,130	15,299,932
Recognised in profit or loss	(1,640,208)	-	(1,640,208)
Balance as at 30 April 2015	13,622,594	37,130	13,659,724
Balance as at 1 May 2013	16,242,543	37,130	16,279,673
Recognised in profit or loss	(979,741)	-	(979,741)
Balance as at 30 April 2014	15,262,802	37,130	15,299,932

Deferred tax assets of the Company

	Payables RM
Balance as at 30 April 2015/2014	(49,870)

Deferred tax liabilities of the Company

	Others RM
Balance as at 30 April 2015/2014	37,130

13. INVENTORIES

	Group	
	2015 RM	2014 RM
At cost		
Raw materials	7,212,190	7,396,777
Work in progress	1,016,858	866,268
Finished goods	6,046,990	5,145,587
Packaging materials	5,086,296	5,381,612
	<u>19,362,334</u>	<u>18,790,244</u>

(a) During the financial year, inventories of the Group recognised as cost of sales amounted to RM121,932,857 (2014: RM124,611,661).

(b) During the financial year, the Group has written off inventories of RM117,379 (2014: RM151,953) in cost of sales.

14. TRADE AND OTHER RECEIVABLES

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Trade receivables				
Third parties	33,530,310	34,081,877	-	-
Other receivables				
Other receivables	184,928	100,720	1,350	1,350
Amounts owing by subsidiaries	-	-	43,388,982	23,905,946
Interest receivable from deposits with licensed banks	215,433	192,138	108,070	159,813
	<u>400,361</u>	<u>292,858</u>	<u>43,498,402</u>	<u>24,067,109</u>
Loans and receivables	33,930,671	34,374,735	43,498,402	24,067,109
Deposits and prepayments				
Deposits	1,267,621	292,535	2,150	2,150
Prepayments	732,790	109,959	14,233	14,333
	<u>2,000,411</u>	<u>402,494</u>	<u>16,383</u>	<u>16,483</u>
	<u>35,931,082</u>	<u>34,777,229</u>	<u>43,514,785</u>	<u>24,083,592</u>

(a) Trade receivables are non-interest bearing and the normal trade terms granted by the Group ranges from 30 days to 90 days (2014: 30 days to 90 days). They are recognised at their original invoice amounts which represent their fair values on initial recognition.

(b) Amounts owing by subsidiaries are unsecured, interest free and payable on demand in cash and cash equivalents.

14. TRADE AND OTHER RECEIVABLES (continued)

(c) The currency exposure profile of receivables are as follows:

	Group	
	2015 RM	2014 RM
Ringgit Malaysia	24,667,450	22,659,606
US Dollar	11,252,527	12,099,491
Singapore Dollar	11,105	18,132
	<u>35,931,082</u>	<u>34,777,229</u>

Receivables of the Company are denominated in Ringgit Malaysia ('RM').

(d) The ageing analysis of trade receivables of the Group is as follows:

	Group	
	2015 RM	2014 RM
Neither past due nor impaired	28,097,151	33,566,173
Past due, not impaired		
1 to 30 days	4,972,543	304,801
31 to 60 days	442,744	125,799
More than 61 days	17,872	85,104
	<u>5,433,159</u>	<u>515,704</u>
	<u>33,530,310</u>	<u>34,081,877</u>

Receivables that are neither past due nor impaired

Trade receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group.

None of the trade receivables of the Group that are neither past due nor impaired have been renegotiated during the financial year.

Receivables that are past due but not impaired

Trade receivables that are past due but not impaired mainly arose from active customers with on-going business relationship, in which the management is of the view that the amounts are recoverable based on past payments history.

Trade receivables of the Group that are past due but not impaired are unsecured in nature.

(e) Information on financial risks of trade and other receivables is disclosed in Note 31 to the financial statements.

15. CASH AND BANK BALANCES

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Cash and bank balances	43,580,765	13,162,077	129,672	56,489
Deposits with:				
- licensed banks	42,578,301	62,981,509	23,631,798	42,544,161
- other financial institution	2,981,600	5,655,258	-	-
	<u>45,559,901</u>	<u>68,636,767</u>	<u>23,631,798</u>	<u>42,544,161</u>
	<u>89,140,666</u>	<u>81,798,844</u>	<u>23,761,470</u>	<u>42,600,650</u>

(a) The currency exposure profile of cash and bank balances are as follows:

	Group	
	2015 RM	2014 RM
Euro	29,169,668	-
Ringgit Malaysia	51,252,097	75,243,413
US Dollar	<u>8,718,901</u>	<u>6,555,431</u>
	<u>89,140,666</u>	<u>81,798,844</u>

Cash and bank balances of the Company are denominated in Ringgit Malaysia ('RM').

(b) Information on financial risks of cash and bank balances is disclosed in Note 31 to the financial statements.

16. SHARE CAPITAL

	Group and Company			
	2015		2014	
	Number of shares	RM	Number of shares	RM
Ordinary shares of RM1.00 each:				
Authorised	<u>100,000,000</u>	<u>100,000,000</u>	<u>100,000,000</u>	<u>100,000,000</u>
Issued and fully paid	<u>80,000,000</u>	<u>80,000,000</u>	<u>80,000,000</u>	<u>80,000,000</u>

The owners of parent are entitled to receive dividends as and when declared by the Company and are entitled to one (1) vote per ordinary share at meetings of the Company. All ordinary shares rank pari passu with regard to the Company's residual assets.

17. RESERVES

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Non-distributable:				
Share premium	4,325,454	4,325,454	4,325,454	4,325,454
Available-for-sale reserve	(316,415)	219,615	(316,415)	219,615
	4,009,039	4,545,069	4,009,039	4,545,069
Distributable:				
Retained earnings	164,423,292	159,129,356	25,857,183	25,208,085
	<u>168,432,331</u>	<u>163,674,425</u>	<u>29,866,222</u>	<u>29,753,154</u>

Available-for-sale reserve

This reserve arose from gains or losses of financial assets classified as other investments.

18. RETIREMENT BENEFITS OBLIGATIONS

(a) The Group operates an unfunded defined benefits retirement plan for its eligible employees and Directors. Under the plan, employees and Executive Directors with a minimum period of five years services with the Group are entitled to retirement benefits based on last drawn final salary and length of service on attainment of the retirement age of 60.

(b) The amounts recognised in the statement of financial position are determined as follows:

	2015 RM	2014 RM
Present value of defined benefit obligations	<u>1,496,302</u>	<u>1,637,778</u>
Analysed as follows:		
Non-current liabilities	<u>1,496,302</u>	<u>1,637,778</u>

(c) The following table sets out the reconciliation of defined benefit plan.

Group	2015 RM	2014 RM
Balance as at 1 May	1,637,778	1,617,801
Current service costs	96,079	128,758
Past service costs	(127,747)	(159,017)
Interest costs	77,947	72,939
Included in profit or loss	46,279	42,680
Benefits paid	<u>(187,755)</u>	<u>(22,703)</u>
Balance as at 30 April	<u>1,496,302</u>	<u>1,637,778</u>

18. RETIREMENT BENEFITS OBLIGATIONS (continued)

(d) During the financial year, the Group updated its policy relating to the age of retirement. As a result, the net defined benefit obligations of the Group decreased by RM13,538 (2014: RM159,017), requiring a corresponding charge to be recognised as a past service cost.

(e) The principal actuarial assumptions used are as follows:

	Group	
	2015 %	2014 %
Discount rate	5.0	5.0
Expected rate of salary increases	5.5	5.5

19. TRADE AND OTHER PAYABLES

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Trade payables				
Third parties	4,154,465	3,957,772	-	-

	(1,751,333)	(1,033,128)	-	-
	8,762,135	10,134,691	241,433	406,699

- (a) The Malaysian income tax is calculated at the statutory tax rate of 25% (2014: 25%) of the estimated taxable profit for the fiscal year.
- (b) The numerical reconciliation between the tax expense and the product of accounting profit multiplied by the applicable tax rate of the Group and of the Company are as follows:

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Profit before tax	34,056,071	43,605,431	20,890,531	20,734,674
Tax expense at the applicable tax rate of 25% (2014: 25%)	8,514,018	10,901,358	5,222,633	5,183,669
Tax effects in respect of:				
Non-allowable expenses	855,368	365,601	131,959	285,112
Non-taxable income	(181,719)	(167,374)	(5,091,592)	(5,092,781)
	9,187,667	11,099,585	263,000	376,000
Under/(Over) provision in prior years				
- income tax	358,468	9,819	(21,567)	30,699
- deferred tax	(784,000)	(974,713)	-	-
	8,762,135	10,134,691	241,433	406,699

22. TAX EXPENSE (continued)

(c) Tax on each component of other comprehensive income is as follows:

2015	Group and Company		
	Before tax RM	Tax effect RM	After tax RM
Items that may be reclassified subsequently to profit or loss			
Other investments			
- fair value loss	(536,030)	-	(536,030)
- reclassification to profit or loss upon disposal	-	-	-
	<u>(536,030)</u>	<u>-</u>	<u>(536,030)</u>
Items that may be reclassified subsequently to profit or loss			
Fair value loss on other investments	<u>254,825</u>	<u>-</u>	<u>254,825</u>
2014			
Items that may be reclassified subsequently to profit or loss			
Other investments			
- fair value loss	254,825	-	254,825
- reclassification to profit or loss upon disposal	<u>(233,900)</u>	<u>-</u>	<u>(233,900)</u>
	<u>20,925</u>	<u>-</u>	<u>20,925</u>
Items that may be reclassified subsequently to profit or loss			
Fair value loss on other investments	<u>(114,290)</u>	<u>-</u>	<u>(114,290)</u>

23. DIVIDEND

	Group and Company			
	2015		2014	
	Gross dividend per share sen	Amount of dividend RM	Gross dividend per share sen	Amount of dividend RM
Final single tier dividend	<u>25</u>	<u>20,000,000</u>	<u>25</u>	<u>20,000,000</u>

A single tier final dividend in respect of the financial year ended 30 April 2015 of 25 sen per ordinary share, amounting to RM 20,000,000 has been proposed by the Directors after the reporting period for shareholders' approval at the forthcoming Annual General Meeting. The financial statements for the current financial year do not reflect this proposed dividend. This dividend, if approved by shareholders, would be accounted for as an appropriation of retained earnings in the financial year ending 30 April 2016.

24. EMPLOYEE BENEFITS

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Salaries, wages and bonuses	24,407,714	23,643,505	322,791	333,126
Contributions to defined contribution plan	2,092,388	1,998,726	34,361	32,150
Defined benefit plan	46,279	42,680	-	-
Social security contribution	164,722	165,324	2,419	2,476
Other benefits	77,743	58,007	-	-
	<u>26,788,846</u>	<u>25,908,242</u>	<u>359,571</u>	<u>367,752</u>

Included in the employee benefits of the Group and of the Company are Directors' remuneration amounting to RM7,572,360 (2014: RM7,352,434) and RM51,750 (2014: RM54,250) respectively.

25. COMMITMENTS

	Group	
	2015 RM	2014 RM
Capital expenditure in respect of purchase of property, plant and equipment:		
Contracted but not provided for	<u>1,052,851</u>	<u>647,347</u>

26. EARNINGS PER ORDINARY SHARE

(a) Basic

Basic earnings per ordinary share for the financial year is calculated by dividing profit for the financial year attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the financial year.

	Group	
	2015 RM	2014 RM
Profit attributable to equity holders of the parent ('RM')	<u>25,293,936</u>	<u>33,470,740</u>
Weighted average number of ordinary shares in issue	<u>80,000,000</u>	<u>80,000,000</u>
Basic earnings per ordinary share (sen)	<u>31.62</u>	<u>41.84</u>

(b) Diluted

The diluted earnings per ordinary share for the financial years 2015 and 2014 are the same as the basic earnings per ordinary share since there are no dilutive potential ordinary shares.

27. CONTINGENT LIABILITIES

	Group and Company	
	2015	2014
	RM	RM
Corporate guarantees - unsecured		
Issued to banks for banking facilities granted to subsidiaries		
- limit of guarantee	10,000,000	10,000,000
- amount utilised	<u>655,500</u>	<u>832,250</u>

The Directors are of the view that the chances of the financial institutions to call upon the corporate guarantees are remote. Accordingly, the fair values of the above corporate guarantees given to subsidiaries for banking facilities are negligible.

28. RELATED PARTY DISCLOSURES

(a) Identities of related parties

Parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties could be individuals or other parties.

The Company has controlling related party relationship with its subsidiaries and its ultimate holding company.

- (b) In addition to the transactions detailed elsewhere in the financial statements, the Company had the following transactions with the related parties during the financial year:

	Company	
	2015	2014
	RM	RM
Subsidiaries:		
Dividend income	20,020,018	20,020,018
Management fees income	<u>220,000</u>	<u>240,000</u>

Material balances with related parties at reporting date are disclosed in Note 14 to the financial statements. These transactions have been established under negotiated terms between the parties.

(c) Compensation of key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity, directly and indirectly, including any Director (whether executive or otherwise) of the Group and the Company.

28. RELATED PARTY DISCLOSURES (continued)

(c) Compensation of key management personnel (continued)

The remuneration of Directors during the year is as follows:

	Group		Company	
	2015 RM	2014 RM	2015 RM	2014 RM
Short term employee benefits	6,726,782	6,589,435	51,750	54,250
Contribution to defined contribution plan	792,797	750,263	-	-
Defined benefit plan	52,781	12,736	-	-
	<u>7,572,360</u>	<u>7,352,434</u>	<u>51,750</u>	<u>54,250</u>
Fees	<u>216,000</u>	<u>216,000</u>	<u>190,000</u>	<u>190,000</u>
	<u>7,788,360</u>	<u>7,568,434</u>	<u>241,750</u>	<u>244,250</u>

29. OPERATING SEGMENTS

Apollo Food Holdings Berhad and its subsidiaries are principally engaged in investment holding, manufacturing, distributing and trading in compound chocolates, chocolate confectionery products and cakes.

Apollo Food Holdings Berhad has arrived at three (3) reportable segments that are organised and managed separately according to the nature of products and services, specific expertise and technologies requirements, which requires different business and marketing strategies. The reportable segments are summarised as follows:

(i) Investment holding

(ii) Manufacturing

Manufacturing and trading in compound chocolates, chocolate confectionery products and cakes.

(iii) Marketing and distribution

Marketing and distributing in compound chocolates, chocolate confectionery products and cakes.

The accounting policies of operating segments are the same as those described in the summary of significant accounting policies.

Segment performance is evaluated based on operating profit, excluding non-recurring losses, and in certain respect as explained in the table below, it is measured differently from operating profit in consolidated financial statements.

Inter-segment revenue is priced along the same lines as sales to external customers and is eliminated in the consolidated financial statements. These policies have been applied constantly throughout the current and previous financial years.

Segment assets exclude tax assets. Segment liabilities exclude tax liabilities. Details are provided in the reconciliations from segment assets and liabilities to the position of the Group.

29. OPERATING SEGMENTS (continued)

	Investment holding RM	Manufacturing RM	Marketing and distribution RM	Total RM
2015				
Revenue				
Total revenue	70,350	202,394,258	109,449,449	311,914,057

Depreciation and amortisation	-	(9,652,794)	(233,743)	(9,886,537)

29. OPERATING SEGMENTS (continued)

2014	Investment holding RM	Manufacturing RM	Marketing and distribution RM	Total RM
Segment profit before income tax	474,656	36,769,806	6,360,969	43,605,431
Tax expense	(406,699)	(8,103,492)	(1,624,500)	(10,134,691)
Other material non-cash items:				
- bad debts written off	-	(1,544)	-	(1,544)
- inventories written off	-	(151,953)	-	(151,953)
- impairment loss on other investments	(657,464)	-	-	(657,464)
Additions to non-current assets other than financial instruments and deferred tax assets	-	9,844,953	122,808	9,967,761
Segment assets	46,840,031	193,706,545	29,172,735	269,719,311
Segment liabilities	449,049	9,744,440	453,002	10,646,491

(a) Reconciliations of reportable segment revenues, profit or loss, assets and liabilities to the corresponding amounts of the Group are as follows:

	2015 RM	2014 RM
Revenue		
Total revenue for reportable segments	311,914,057	331,460,313
Inter-segment revenue	(99,287,284)	(110,746,980)
Revenue from external customers	212,626,773	220,713,333
Profit for the financial year		
Total profit or loss for reportable segments	34,056,071	43,605,431
Tax expense	(8,762,135)	(10,134,691)
Profit for the financial year of the Group from continuing operations per consolidated statement of profit or loss and other comprehensive income	25,293,936	33,470,740
Total assets for reportable segments	274,106,481	269,719,311
Tax assets	185,889	65,252
Assets of the Group per consolidated statement of financial position	274,292,370	269,784,563
Total liabilities for reportable segments	11,923,617	10,646,491
Tax liabilities	13,936,422	15,463,647
Liabilities of the Group per consolidated statement of financial position	25,860,039	26,110,138

29. OPERATING SEGMENTS (continued)

(b) Geographical segments

The manufacturing facilities and sales offices of the Group are mainly based in Malaysia, Indonesia, Singapore, China and others.

In presenting information on the basis of geographical areas, segment revenue is based on the geographical location from which the sale transactions originated.

	2015 RM	2014 RM
Revenue from external customers		
Malaysia	122,487,836	122,802,239
Asean (excluding Malaysia)	82,268,621	85,621,627
Others	7,870,316	12,289,467
	<u>212,626,773</u>	<u>220,713,333</u>

(c) Major customers

Revenue from a customer in distributing imported products represent approximately RM35,271,353 (2014: RM43,203,854) of the Group revenue.

30. FINANCIAL INSTRUMENTS

(a) Capital management

The primary objective of the Group's capital management is to ensure that the Group continues as going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The overall strategy of the Group remains unchanged from that in the financial year ended 30 April 2014.

The Group's capital structure is represented by the equity of the Company. No changes were made in the objectives, policies or processes during the financial years ended 30 April 2015 and 30 April 2014.

Pursuant to the requirements of Practice Note No. 17/2005 of the Bursa Malaysia Securities, the Group is required to maintain a consolidated shareholders' equity equal to or not less than the twenty-five percent (25%) of the issued and paid-up capital and such shareholders' equity is not less than RM40,000,000 million. The Company has complied with this requirement for the financial year ended 30 April 2015.

The Group are not subject to any other externally imposed capital requirements.

30. FINANCIAL INSTRUMENTS (continued)

(b) Financial instruments

Categories of financial instruments

Group	2015 RM	2014 RM
Financial assets		
Available-for-sale		
Other investments	3,471,762	4,062,735
Loan and receivables		
Trade and other receivables	33,930,671	34,374,735
Cash and bank balances	89,140,666	81,798,844
	<u>123,071,337</u>	<u>116,173,579</u>
	<u>126,543,099</u>	<u>120,236,314</u>
Financial liabilities		
Other financial liabilities		
Trade and other payables	<u>10,427,315</u>	<u>9,008,713</u>
Company		
Financial assets		
Available-for-sale		
Other investments	3,470,762	4,061,735
Loans and receivables		
Trade and other receivables	43,498,402	24,067,109
Cash and bank balances	23,761,470	42,600,650
	<u>67,259,872</u>	<u>66,667,759</u>
	<u>70,730,634</u>	<u>70,729,494</u>
Financial liabilities		
Other financial liabilities		
Other payables	<u>457,658</u>	<u>449,049</u>

30. FINANCIAL INSTRUMENTS (continued)

(c) Methods and assumptions used to estimate fair value

The fair values of financial assets and financial liabilities are determined as follows:

- (i) Financial instruments that are not carried at fair value and whose carrying amounts are at reasonable approximation of fair value.

The carrying amounts of financial assets and financial liabilities, such as trade and other receivables and trade and other payables, are reasonable approximation of fair value, due to their short-term nature.

- (ii) Quoted shares

The fair value of quoted investments in Malaysia is determined by reference to the exchange quoted market bid prices at the close of the business on the end of the reporting period.

- (iii) Unquoted shares

In view of the insignificant financial effect on the Company's profit net of tax with the possible change in fair value, the effect of the fair value was not disclosed in the financial statements.

(d) Fair value hierarchy

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Fair value of non-derivative financial liabilities, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the end of the reporting period. For other borrowings, the market rate of interest is determined by reference to similar borrowing arrangements.

Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

30. FINANCIAL INSTRUMENTS (continued)

(d) Fair value hierarchy (continued)

The following table set out the financial instruments carried at fair value shown in the statements of financial position:

	Fair value of financial instruments carried at fair value				Total fair value RM	Carrying amount RM
	Level 1 RM	Level 2 RM	Level 3 RM	Total RM		
2015 Group						
Financial assets at fair value through profit or loss						
Other investments	3,470,762	-	1,000	3,471,762	3,471,762	3,471,762
2014 Group						
Financial assets at fair value through profit or loss						
Other investments	4,061,735	-	1,000	4,062,735	4,062,735	4,062,735
2015 Company						
Financial assets at fair value through profit or loss						
Other investments	3,470,762	-	-	3,470,762	3,470,762	3,470,762
2014 Company						
Financial assets at fair value through profit or loss						
Other investments	4,061,735	-	-	4,061,735	4,061,735	4,061,735

During the financial years ended 30 April 2015 and 30 April 2014, there were no transfers between Level 1, Level 2 and Level 3 fair value measurements.

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's financial risk management objective is to optimise value creation for its shareholders whilst minimising the potential adverse impact arising from fluctuations in foreign currency exchange and interest rates. It is, and has been throughout the period under review, the Group's policy that no trading and speculation in derivative financial instruments shall be undertaken.

The Group is exposed mainly to credit risk, foreign currency risk, interest rate risk as well as liquidity and cash flow risk. Information on the management of the related exposures are detailed below.

(i) Credit risk

Cash deposits and trade receivables could give rise to credit risk which requires the loss to be recognised if a counter party fails to perform as contracted. The counter parties are major international institutions and reputable multinational organisations. It is the policy of the Group to monitor the financial standing of these counter parties on an ongoing basis to ensure that the Group is exposed to minimal credit risk.

The Group's primary exposure to credit risk arises through its trade and other receivables. The Group's trading terms with its customers are mainly on credit. The credit period is generally for a period of 30 to 90 days (2014: 30 to 90 days). Each customer has a maximum credit limit and the Group seeks to maintain strict control over its outstanding receivables via a credit control officer to minimise credit risk. Overdue balances are reviewed regularly by senior management.

Exposure to credit risk

At the end of each reporting period, the maximum exposure of the Group and of the Company to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

Credit risk concentration profile

At the end of each reporting period:

- (a) Approximately 28% (2014: 27%) of the Group's trade receivables were due from a customer; and
- (b) The Company do not have any significant concentration of credit risk as at the end of the reporting period other than the amounts owing by subsidiaries of RM43,388,982 (2014: RM23,905,946).

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 14 to the financial statements. Bank balances and deposits are placed with reputable financial institutions with good standing. The Directors believe that the possibility of non-performance by the financial institutions is remote on the basis of its financial strength.

Financial assets that are either past due or impaired

Information regarding financial assets that are either past due or impaired is disclosed in Note 14 to the financial statements.

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument would fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign exchange risk on sales and purchases that are denominated in foreign currencies.

Foreign currency risk is monitored closely and managed to an acceptable level.

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity analysis of the Group to a reasonably possible change in Singapore Dollar ('SGD'), United States Dollar ('USD') and EURO ('EUR') exchange rate against the respective functional currencies of the Group entities, with all other variables held constant:

		Group	
Profit after tax		2015 RM	2014 RM
SGD/RM	- strengthen by 2% (2014: 2%)	200	300
	- weaken by 2% (2014: 2%)	(200)	(300)
USD/RM	- strengthen by 2% (2014: 2%)	299,600	279,900
	- weaken by 2% (2014: 2%)	(299,600)	(279,900)
EUR/RM	- strengthen by 2% (2014: 2%)	437,600	-
	- weaken by 2% (2014: 2%)	(437,600)	-

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's and of the Company's financial instruments would fluctuate because of changes in market interest rates.

The Group's and the Company's exposures to market risk of changes in interest rates relates primarily to the Group's deposits with investment banks and commercial banks. There is no formal hedging policy with respect to interest rate exposure.

The following table sets out the carrying amounts and the weighted average effective interest rates as at the reporting date of the Group's financial assets and financial liabilities that are exposed to interest rate risk.

As at 30 April 2015	Note	Weighted average effective interest rate %	Within 1 year RM	1 - 5 years RM	More than 5 years RM	Total RM
Group						
Fixed rates						
Deposits with investment and commercial banks	15	3.7	45,559,901	-	-	45,559,901
Company						
Fixed rates						
Deposits with investment and commercial banks	15	3.7	23,631,798	-	-	23,631,798
As at 30 April 2014						
Group						
Fixed rates						
Deposits with investment and commercial banks	15	3.3	68,636,767	-	-	68,636,767
Company						
Fixed rates						
Deposits with investment and commercial banks	15	3.4	42,544,161	-	-	42,544,161

31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(iii) Interest rate risk (continued)

Sensitivity analysis for interest rate risk

The following table demonstrates the sensitivity analysis of the Group and of the Company if interest rates at the end of reporting period changed by 100 basis points with all other variables held constant.

	Group		Company	
	2015	2014	2015	2014
	RM	RM	RM	RM
Profit after tax				
- Increase by 1% (2014: 1%)	341,699	514,776	177,238	319,081
- Decrease by 1% (2014: 1%)	<u>(341,699)</u>	<u>(514,776)</u>	<u>(177,238)</u>	<u>(319,081)</u>

The sensitivity is lower in 2015 than in 2014 because of a decrease in deposits with investment banks and commercial banks during the financial year. The assumed movement in basis points for interest rate sensitivity analysis is based on current observable market environment.

(iv) Liquidity and cash flow risk

Liquidity risk arises from the Group's management of working capital. It is the risk that the Group would encounter difficulty in meeting its financial obligations when due.

The Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

The table below summarises the maturity profile of the liabilities of the Group and of the Company's liabilities at the end of each reporting period based on contractual undiscounted repayment obligations.

	On demand or within one year RM	One to five years RM	Over five years RM	Total RM
As at 30 April 2015				
Group				
Financial liabilities				
Trade and other payables	10,427,315	-	-	10,427,315

Company				
Financial liabilities				
Trade and other payables	449,049	-	-	449,049
Total undiscounted financial liabilities	449,049	-	-	449,049

(v) Market price risk

Market risk is the risk that the fair value of future cash flows of the financial instruments of the Group would fluctuate because of changes in market prices (other than interest or exchange rates).

The Group is exposed to equity price risks arising from quoted investments held by the Group. Quoted equity instruments in Malaysia are listed on the Bursa Malaysia Securities Berhad. These instruments are classified as financial assets available for sale.

There has been no changes to the Group's exposure to market risks or the manner in which these risks are managed and measured.

Sensitivity analysis for market price risk

The Group has considered the sensitivity of the financial instruments to market risks and is of the view that its impact is insignificant.

32. SIGNIFICANT EVENT DURING THE FINANCIAL YEAR

On 1 April 2015, Hap Huat Food Industries Sdn. Bhd., a wholly owned subsidiary of Apollo Food Holdings Berhad has changed its business activity to investment company from the distribution and marketing of compound chocolates, chocolate confectionery products and cakes. Its business activities of distribution and marketing are to be assumed by Apollo Food Industries (M) Sdn. Bhd..
